Frisco City Stockyard Customer,

It is with great regrets I have to send this letter. Mid State Stockyards, LLP will no longer be allowed by the Frisco City Co-op to receive or pick up cattle at the Frisco City Stockyard location. I apologize at this time on behalf of Mid State Stockyards, LLP for any inconvenience this may cause you.

For fourteen years I have worked as auctioneer of Frisco City Stockyard. I have always tried to get the best possible prices for your livestock. As you know the business has changed significantly, not only for you, but also for the Order Buyers that are purchasing your livestock. We at Mid State Stockyards, LLP feel that we have the best buying power of any stockyard in the southeast. We have from 18 to 25 professional buyers every week, plus our cattlemen that are buying cattle to take back to their farms. We know we are putting cattle in front of more buying power than most other stockyards in the southeast.

I hope you continue to let Mid State Stockyards, LLP market your cattle. If there is any way we can assist you with your cattle from working, hauling, and marketing please contact us at any time.

Sincerely,

Billy Younkin
